

ANOTHER WORD OR TWO ABOUT CLAIMS...

To combat personal injury attorneys from driving up claim costs, which drive your insurance rates up...

WE NEED YOUR HELP!

1. **IMMEDIATELY REPORT ALL CLAIMS!**
2. **Make every effort** to secure the following information for **ALL** parties involved in the accident:

- Name of the other driver(s)
- Address
- E-mail address
- Phone number(s)
- License plate numbers of vehicles involved
- Witness names and contact information (if any)
- Driver's license number(s)

Without any contact information, National Claims Management (NCM) is stopped dead in their tracks and prevented from properly investigating your accident.

FACTS:

A majority of claims reported immediately **WITH OUT** the other party's information end up having an attorney involved. This results in higher claim settlements and higher insurance premiums.

*****PLEASE TAKE TIME TO GATHER THE INFORMATION NOTED ABOVE*****
