The Market Is Tightening — But You Still Have a Path to Wins

Diesel costs are climbing, litigation severity is rising, and carriers are pulling out of entire territories or shutting down entire trucking segments. Placing business is harder, renewals are tougher, and the cheapest quote on the table today is often the first non-renewal tomorrow.

Carriers who truly understand this shift aren't retreating — they're maneuvering. We're still binding and still backed by an A+ (Superior) rated carrier built for day-truckers and logging risks. In a tough market, agents need a carrier that can hold steady.

COMMERCIAL TRUCKING PROGRAM

For-hire and private motor carriers running local-to-regional routes and returning home nightly. We accept owner-operators and fleets of any size, with a mileage-based rating approach tailored to how the vehicle is actually used. Targeting under 20,000 to 80,000 annual miles. We are not a long-haul market.

Financial Strength: Admitted, Rated A+ (Superior) by A.M. Best, Financial Size Category XV
